

# Opening a Shared Mailbox in Outlook

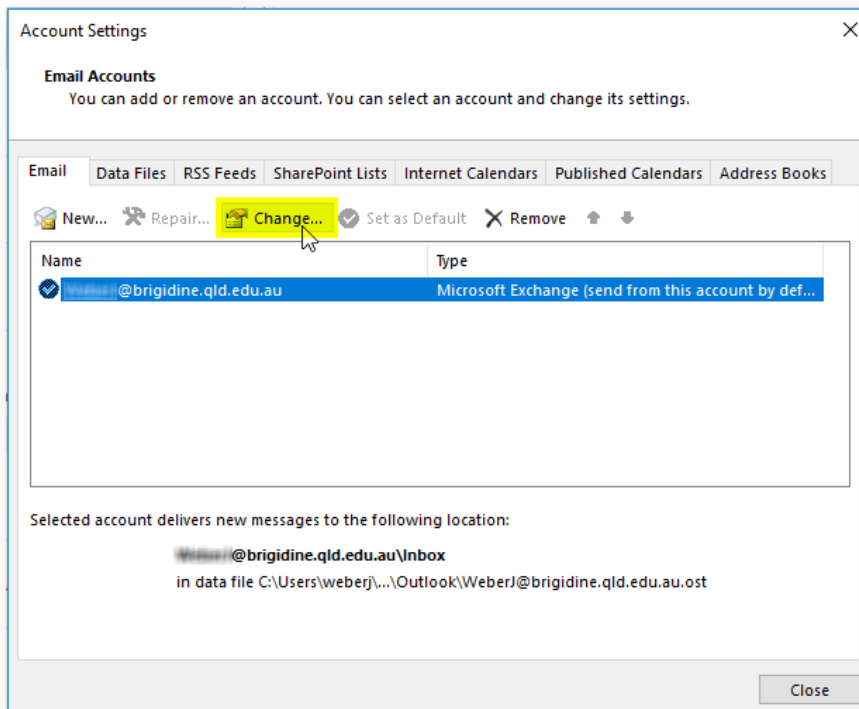

When you have access to multiple mailbox's or someone has shared a folder with you, you are able to add the mailbox's to the panel on the left hand side of Outlook.

## Outlook Desktop - Adding shared folders to list of inboxes

1. Open Outlook on your computer and click 'File' in the top left.
2. In the 'Info' menu on the left hand side click 'Account Settings' and 'Account Settings' underneath that.

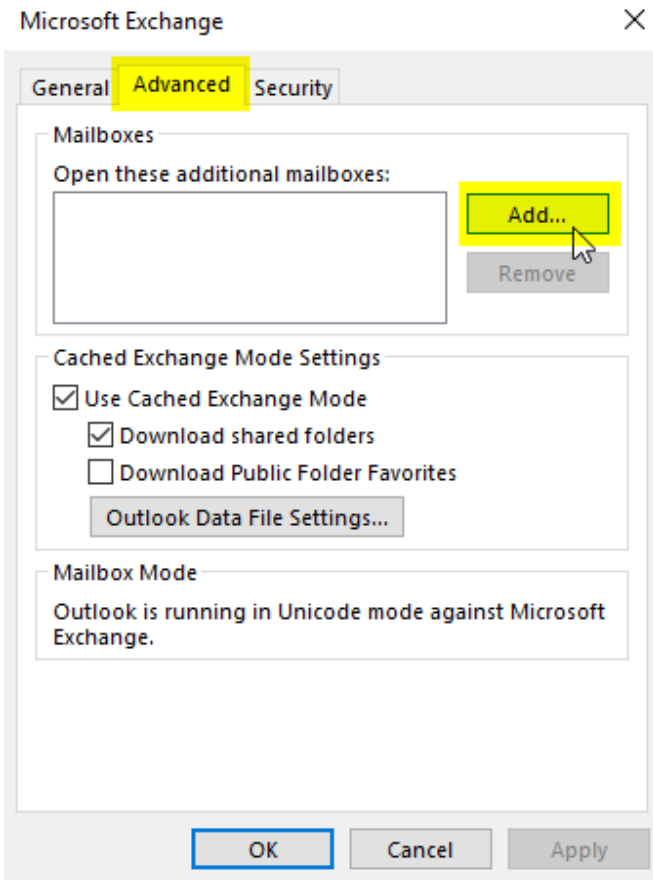

3. This will open another menu shown below. Click on your email and click the 'Change...' button above it.

4. On the following screen choose 'More Settings ...' in the bottom right.

The screenshot shows a Windows-style dialog box titled "Change Account" with a close button (X) in the top right corner. Below the title bar, the "Server Settings" section is active, with the instruction "Enter the Microsoft Exchange Server settings for your account." A "User Name:" label is followed by a text box containing "@brioidine.qld.edu.au". Below this, the "Offline Settings" section contains a checked checkbox for "Use Cached Exchange Mode" and a slider for "Mail to keep offline:" set to "1 year". In the bottom right of the main area, a button labeled "More Settings ..." is highlighted with a yellow rectangle and a mouse cursor. At the bottom of the dialog, there are four buttons: "< Back", "Next >" (highlighted with a blue border), "Cancel", and "Help".

5. On the More Settings screen, click on the 'Advanced tab', click 'Add...' and type in the email address of the shared folder you are trying to open.

### Add Mailbox

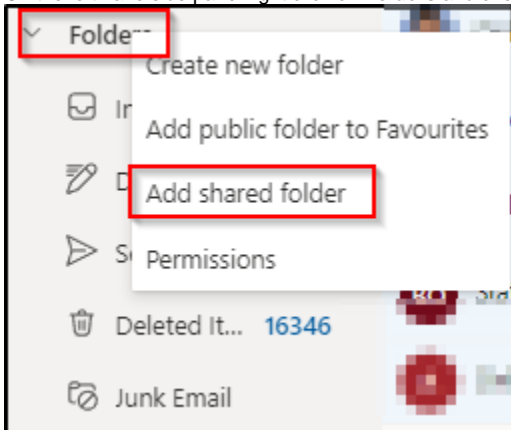

6. Finally hit 'Apply' in the bottom right and close all the settings windows. You will now see the shared folder at the bottom of the left hand pane.

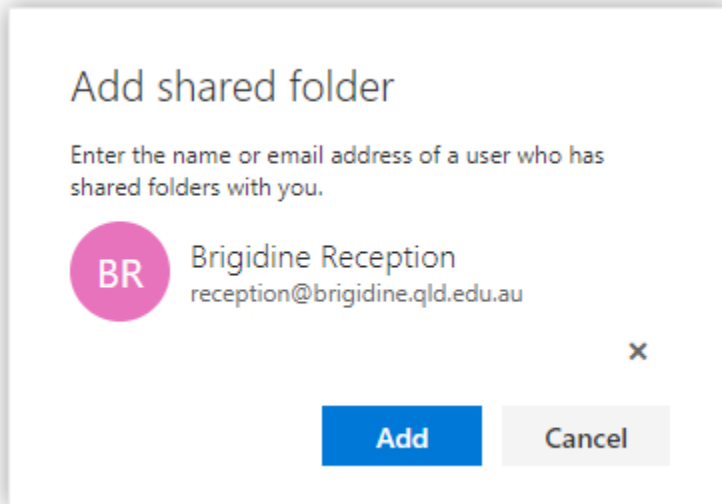

## Outlook Web App - Adding shared folders to list of inboxes

1. Navigate to Outlook via BrigNET.
2. Upon navigating to the Outlook link on BrigNET you will be automatically placed into your mailbox.

3. On the left hand side panel right click on **Folders** and choose 'Add shared folder...'

4. Clicking this will prompt you to type in an email address. You can find the mailbox by either typing in the email address or searching it's name. E.g. 'Reception' or 'reception@brigidine.qld.edu.au'

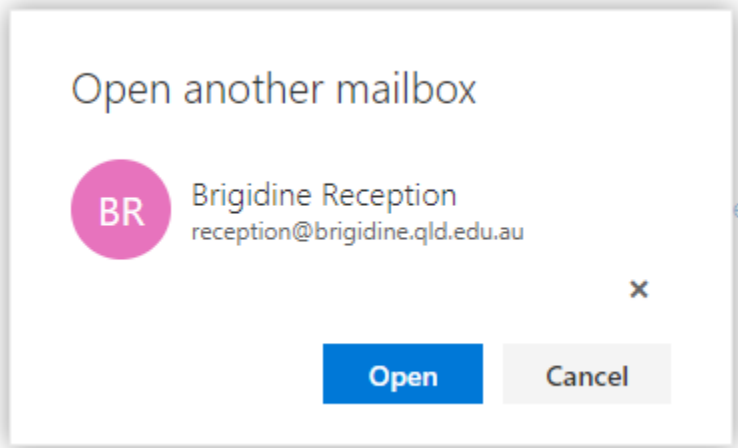

5. Once you have found the mailbox you wish to add click 'Add'. *Please note that you will need to have access to that mailbox to be able to add it. You will get an error message if you do not have access to the mailbox.*
6. Once you have clicked 'Add' the mailbox will appear on the left below your personal inbox.

## Outlook Web App - Opening mailbox for temporary access

1. Navigate to Office 365 via BrigNET
2. Upon navigating to the Office 365 link on BrigNET you will be automatically placed into your mailbox.
3. Click your name up the top right to open the account settings window.
4. In this menu click 'Open another mailbox...'

5. Enter the mailbox you are trying to access and click 'Open' once you have selected the mailbox you are looking for. *Please note you need to have permission to be able to access another mailbox. If you do not have permissions to the mailbox you choose you will receive an error message.*

6. Click open will open the mailbox in a new tab. Once you have finished with the mailbox you can close the tab that was opened.
