

# Creating a Class OneNote

Use this tutorial to create a Class OneNote, a OneNote that allows you to easily distribute your class's notes and content to students.

## Note

It's a good idea to create your next years/terms/semesters Class OneNote in advance, allowing you to have a stress-free start of term.

## Instructions

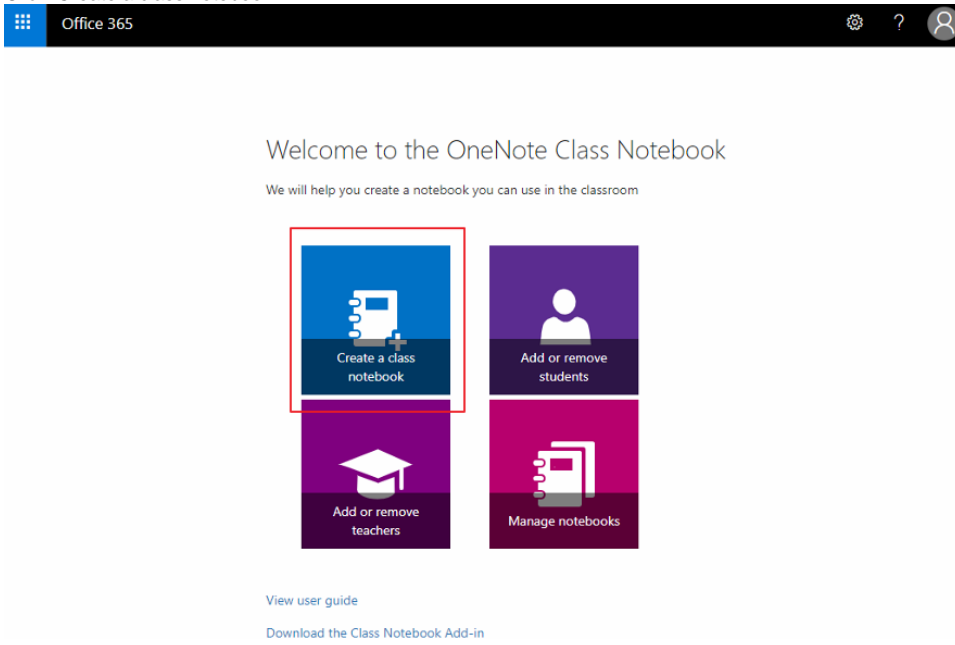

1. Open 'Office365' via [BrigNet link](#).

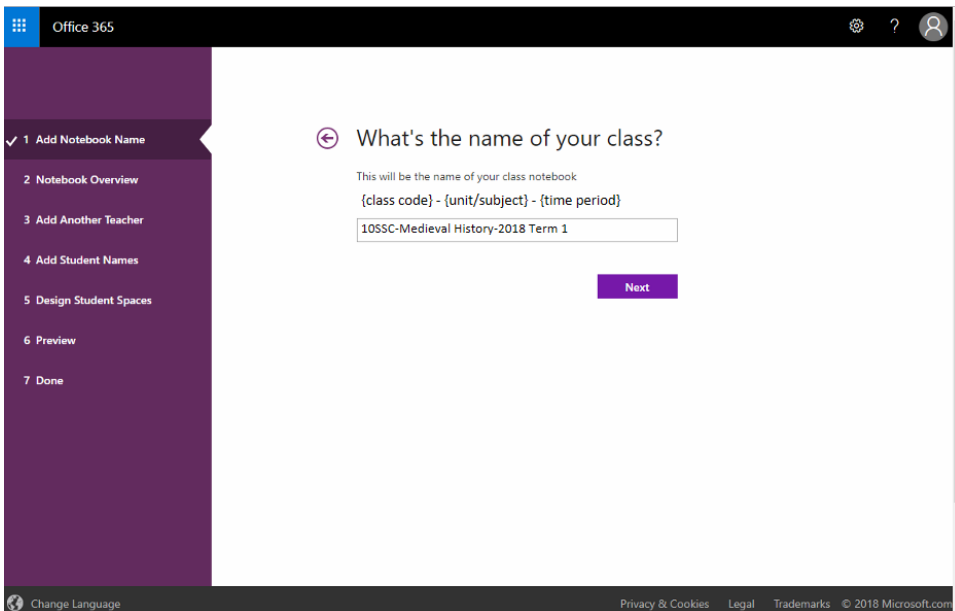

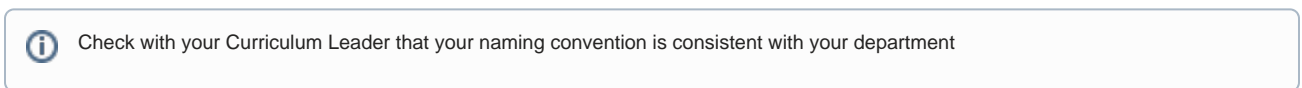

2. Open 'Class Notebook' under Apps.

3. Click 'Create a class notebook'

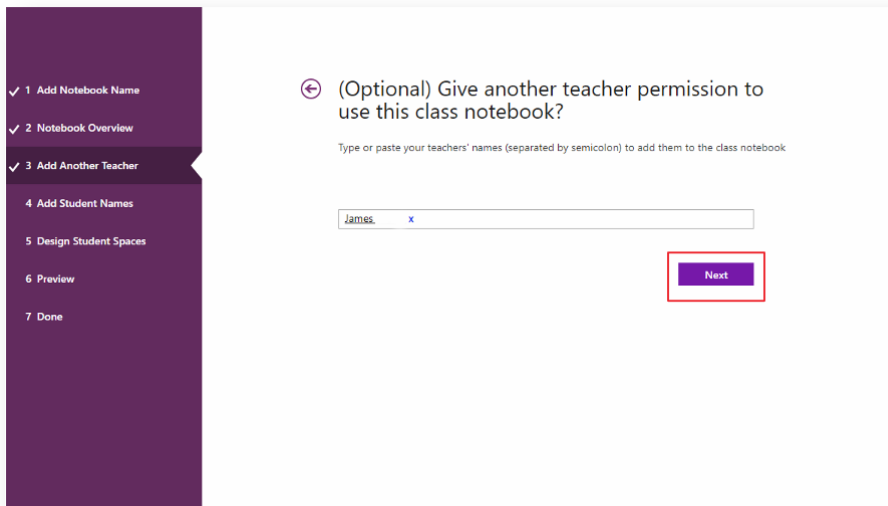

4. Add a Notebook Name via the Naming Convention {class code} - {unit/subject} - {time period}. For example: 10SSC-Medieval History-2018 Term 1.

5. Note the different sections that are created within a Class OneNote, *click 'Next'*.

6. Add any other teachers that will need access to your Class OneNote. By making someone a 'teacher' they will now become 'cocreators' of the OneNote, having special permissions and access to a separate section hidden from students.

7. Add your student's emails, via exported student emails from SEQTA Markbook **ensure you wait for the students email to be replaced by their names**, then *click* 'Next'.

If you are unsure on how to export students emails from SEQTA click this link.

The screenshot shows the Office 365 interface for setting up a class notebook. On the left is a purple sidebar with a list of steps: 1 Add Notebook Name, 2 Notebook Overview, 3 Add Another Teacher, 4 Add Student Names (highlighted), 5 Design Student Spaces, 6 Preview, and 7 Done. The main content area has a heading 'Now, what are your students' names?' with a back arrow icon. Below the heading is a subtext: 'Type or paste your students' names (separated by semicolon) to add them to the class notebook'. There is a text input field containing several names separated by semicolons, with one name 'Hollie Lawrence' highlighted in red. Below the input field is a purple 'Next' button, which is also highlighted with a red box. At the bottom of the screen, there is a footer with 'Change Language', 'Privacy & Cookies', 'Legal', 'Trademarks', and '© 2018 Microsoft.com'.

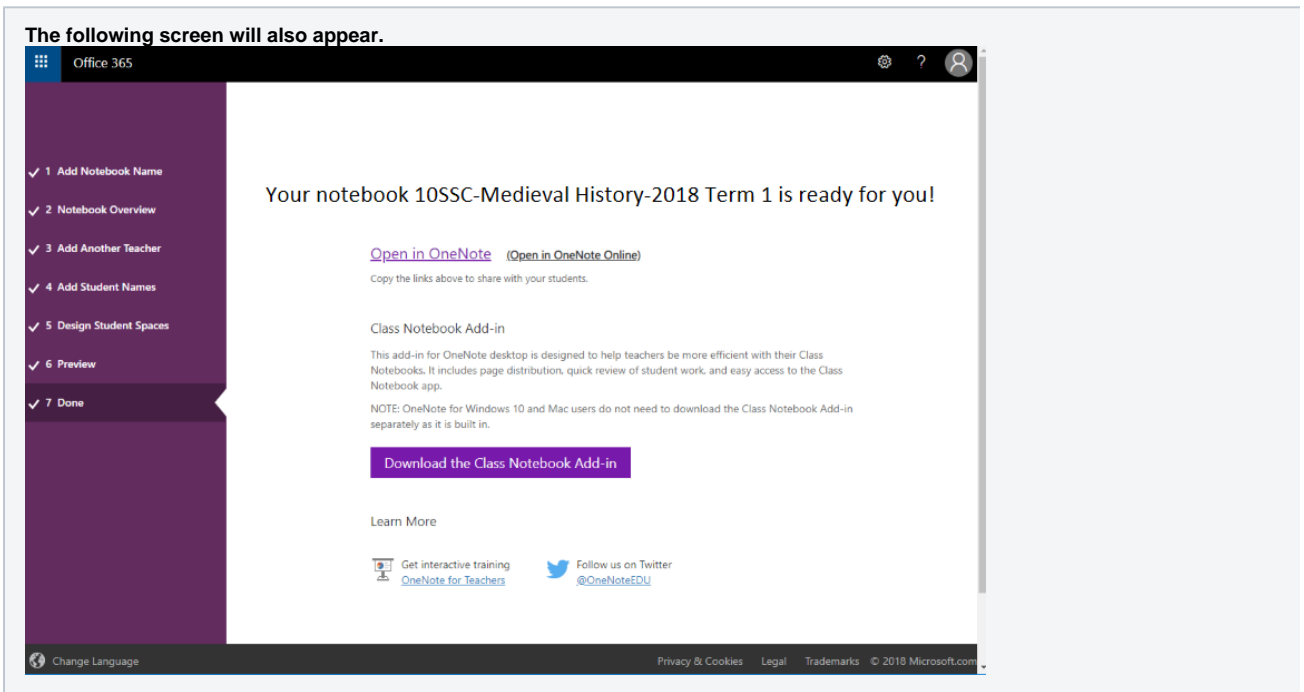

8. Tick which sections you wish to include in the Class OneNote, then *click* 'Next'.

The screenshot shows the Office 365 interface for setting up a class notebook. On the left is a purple sidebar with a list of steps: 1 Add Notebook Name, 2 Notebook Overview, 3 Add Another Teacher, 4 Add Student Names, 5 Design Student Spaces (highlighted), 6 Preview, and 7 Done. The main content area has a heading 'Almost there! What should be inside each student's private space?' with a back arrow icon. Below the heading is a subtext: 'These sections will be created in every student's private notebook. Here are a few suggestions:'. There is a list of checkboxes with corresponding icons: 'Handouts', 'Class Notes', 'Homework', and 'Quizzes'. All four checkboxes are checked. Below the list is a link 'Add more' with a plus icon. At the bottom of the list is a purple 'Next' button. At the bottom of the screen, there is a footer with 'Change Language', 'Privacy & Cookies', 'Legal', 'Trademarks', and '© 2018 Microsoft.com'.

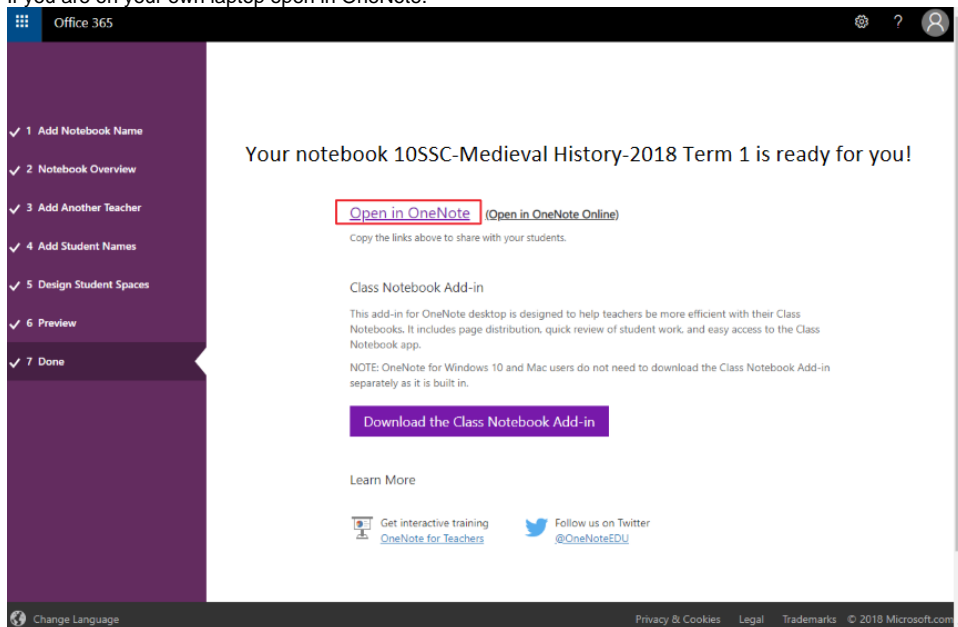

9. Note the preview of both the Teacher side and Student's side, then *click* 'Create'.

10. Once your ClassOneNote has been created, an email will **automatically** be sent out to the student's you have added.

a. If you are on your own laptop open in OneNote.

b. If you are on a classroom laptop please open your ClassOneNotes in OneNote online to save time and minimise sync issues.

Once created **do not to rename or move** the Class OneNote file, any renaming or change of location will cause the file to break for all students due to sync issues.
