

Conversations in Teams

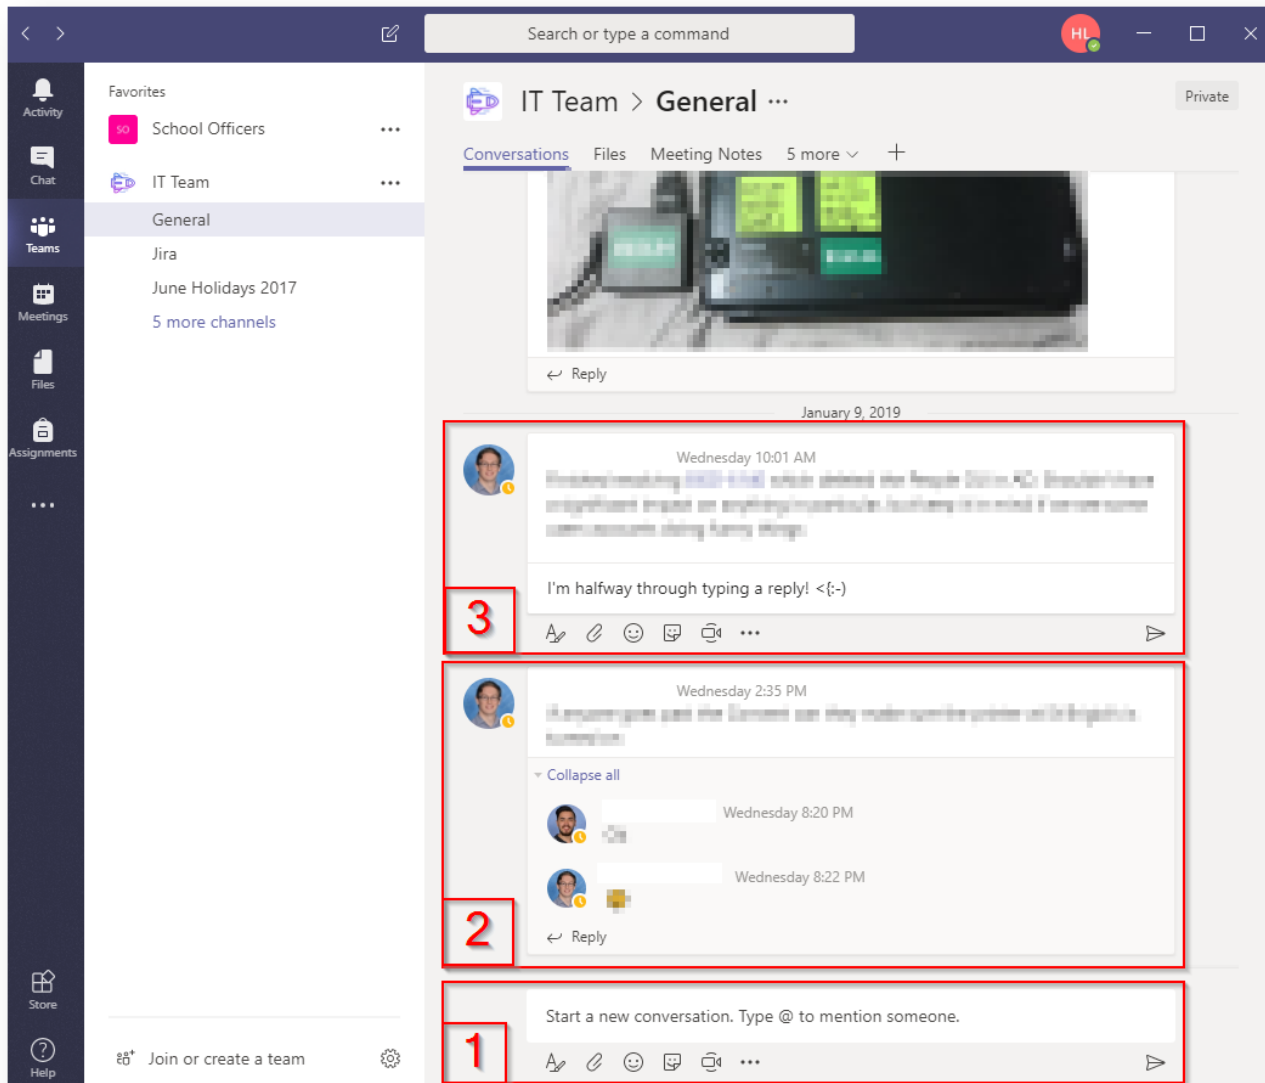

An Overview of the Conversations Tab

Each *Channel* you create in a Microsoft Team comes with a *Conversations Tab*.

Conversations are visible to more people

Conversations are different from *Chats* because they are visible to everyone in a channel and not private. They are a great way to communicate and collaborate with some or all of your team members at once.

Below is a list of key features of the *Conversations Tab*.

More information on the key features of Conversations

1. [Starting a conversation](#)
2. [Collapsing and Expanding Threads](#)
3. [Replying to a Thread](#)
