Disabling Notifications in Google Chrome

Occasionally you will get unwanted alerts and Notifications from Google Chrome that look something like this:

These can be frustrating to deal with. In order to Disable these Notifications follow the instructions below.

1. Open Settings

Click on the Vertical Ellipses (three dots) at the top right hand side of your Google Chrome browser. Click on the Settings option. This will open the Settings page.

		— í	J X
	\$	/ ~	8
Search	New <u>t</u> ab <u>N</u> ew window New <u>i</u> ncognito wi	indow Ctrl	Ctrl+T Ctrl+N +Shift+N
	<u>H</u> istory <u>D</u> ownloads <u>B</u> ookmarks		Ctrl+J
	Zoom -	100% +	50
	<u>P</u> rint <u>C</u> ast		Ctrl+P
	<u>F</u> ind More too <u>l</u> s		Ctrl+F ▶
	Edit Cu	t Copy	Paste
	<u>S</u> ettings		
	Help		Þ
	E <u>x</u> it		

2. Open Advanced Settings

Scroll to the bottom of the Settings Page and click on the Advanced button.

Default browser

Google Chrome is your default browser

On startup

0	Open the New Tab page
0	Continue where you left off
۲	Open a specific page or set of pages
	Home - BrigNET https://brignet.brigidine.qld.edu.au/
	Working https://sharepoint.brigidine.qld.edu.au/
	Add a new page
	Use current pages
	Advanced 👻

3. Go to Content Settings

Find the section entitled *Privacy and Security*. Click on the *Content Settings* button.

Privacy and security	
Google Chrome may use web services to improve your browsing experience. You may optionally disa services. Learn more	able these
Allow Chrome sign-in By turning this off, you can sign in to Google sites like Gmail without signing in to Chrome	
Use a prediction service to help complete searches and URLs typed in the address bar	-
Use a prediction service to load pages more quickly	
Use a web service to help resolve navigation errors	
Safe Browsing Protects you and your device from dangerous sites	
Help improve Safe Browsing Sends some system information and page content to Google	
Automatically send usage statistics and crash reports to Google	-
Use a web service to help resolve spelling errors Smarter spell-checking by sending what you type in the browser to Google	
Send a "Do Not Track" request with your browsing traffic	
Allow sites to check if you have payment methods saved	
Manage certificates Manage HTTPS/SSL certificates and settings	
Content settings Control what information websites can use and what content they can show you	•
Clear browsing data Clear history, cookies, cache, and more	÷

4. Click on the Notifications button

Q	Search settings	
÷	Content settings	0
٩	Cookies Allow sites to save and read cookie data	•
•	Location Ask before accessing	•
	Camera Ask before accessing	•
Ŷ	Microphone Ask before accessing	•
	Notifications Ask before sending	•
$\langle \rangle$	JavaScript Allowed	•
*	Flash Ask first	•
	Images Show all	•
Z	Pop-ups and redirects Blocked	•
	Ads Blocked on sites that show intrusive or misleading ads	•
¢	Background sync Allow recently closed sites to finish sending and receiving data	*

5. Disable Pop-ups

Below the Allow heading there is a list of websites that are giving you Notifications. Click on the Vertical Ellipses (three dots) to the right of each website and select the Block option.

Q Search settings	
← Notifications	
Ask before sending (recommended)	-
Block	Add
No sites added	
Allow	Add
www.google.com	÷
← Notifications	
 Notifications Ask before sending (recommended) 	-
 Notifications Ask before sending (recommended) Block 	Add
 Kotifications Ask before sending (recommended) Block No sites added 	Add
 Kotifications Ask before sending (recommended) Block No sites added Allow 	Add
 Kotifications Ask before sending (recommended) Block No sites added Allow www.google.com 	Add Add Block Edit

You can now close the Settings page. You have successfully disabled Notifications from Google Chrome. To prevent this happening in the future, when you see a Dialogue Box like the one below click Block.
